

Losstidburn

SURVIVAL GUIDE

2022 EDITION

THE GUIDE THAT YOU MUST READ

FOREWORD

Everything at L'OsstidBurn is organized and run by volunteers.

Volunteering is a great way to contribute and participate in the event. There are many ways to get involved: Gate, First Aid, Rangers, Sanctuary, Fire Perimeter, Department of Public Works (DPW), etc.

All L'OsstidBurn participants are encouraged to take on a minimum of **two shifts** during the event.

When you purchased your ticket, you received the link to the volunteer platform (below). Go pick your shifts now if you haven't already!

Make sure you have a ticket first – signing up for shifts will not get you a ticket. ;-)

<https://participation.losstidburn.org>

Then, don't forget to update your information!

COVID MEASURES

We've been going through an unprecedented period over the past 2 years and a bit. We're required to comply with current public health rules.

Although these rules have become much less strict, everyone still needs to pay attention to possible symptoms and test and isolate themselves if necessary.

Hand hygiene remains fundamental: in the context of a camping event, it can be trickier to keep up your usual good habits. Hand washing stations (hydroalcoholic gel) will be available at various locations. We strongly encourage you to carry hand sanitizer with you and wash your hands regularly with soap and water.

For more information on current public health recommendations: <https://www.quebec.ca/en/health/health-issues/a-z/2019-coronavirus/basic-health-instructions>

If you have any questions, contact: securite@losstidburn.com

Note: The rules are subject to change by the public health authorities. It's always better to follow public health guidelines on the official government website.

L'OSSTIDBURN ?

What's that?

L'OsstidBurn is a participative art event.

Mission?

L'OsstidBurn's mission is to promote engagement in art and participation. Inspired by the 10 principles of Burning Man, L'OsstidBurn encourages participants to express their creativity freely and radically.

The eclectic L'OsstidBurn community is made up of people from all walks of life: artists, scientists, engineers, shamans, nurses, chefs, plumbers, philosophers, accountants, etc. Everyone converges to co-create a temporary zone of self-expression. Participants paint, weld, sculpt, burn things, write code, cook with a lot of oil and sometimes practice biodanza... In short, they create remarkable interactive experiences.

L'OsstidBurn has been recognized by Burning Man as an official regional event since its inception in 2016.

When ?

June 21-26, 2022

Where ?

Eastern Townships

1 hour 40 minutes from Montreal

3 hours from Quebec City

The address and directions will be sent to all ticketholders 48 hours before the event.

WHERE DOES THE NAME L'OSSTIDBURN COME FROM?

The name of the event is a reference to L'Osstidcho, an anti-conformist and revolutionary show presented for the first time on June 20, 1968 at Théâtre du Quat'Sous in Montreal. The concept was simple: change the customs of theatre by combining different disciplines. In the end, the owner of the Quat'Sous Theatre got fed up with the chaos and unruliness of the members of the young troupe, for whom art came from disorder. L'Osstidcho is a show that will leave an indelible mark on Quebec's collective imagination.

WHAT IS THIS PLACE?

A land with many origins

Although we have good knowledge of the recent and colonial history of the event site, we are conscious of the fact that its history is much more complex and meaningful than only that. The Organization is currently working to create a land acknowledgement to recognize the local Indigenous communities. The project is still in its early stages. If you would like to help with this project, please contact info@losstidburn.com

Gerald V. Bull, born on March 9, 1928 in Ontario, and assassinated on March 22, 1990 in Brussels, was a Canadian engineer specialized in ballistics (the science that studies the movement of projectiles). He conducted extensive research on superguns that could fire over very long distances or high altitudes. In 1971, Gerald Bull founded a ballistics research company—the Space Research Corporation (SRC)—in Highwater near Mansonville in the Eastern Townships, to continue his research.

It was a golden era for the Eastern Townships. Locals were fascinated by the work of Gerald Bull's company. It is said that people heard the cannons firing all the way to Sutton and that neighbours regularly had to replace their windows that broke during tests. They nicknamed him Dr. Strangelove.

The Canadian government dismantled all the remaining cannons on the property, but some vestiges remain, such as an old antenna, power station, manhole and the foundations of several buildings.

10 PRINCIPLES OF BURNING MAN

These principles are not commandments or rules. They are ideals that offer guidelines to reinvent the world and ourselves. Participation can radically change your perception of the surrounding environment and may permanently alter the way you interact with it.

CIVIC RESPONSIBILITY

Everyone must behave in a civic and respectful manner and uphold the 10 principles that govern the event.

Community members who organize events should assume responsibility for public welfare and endeavour to communicate civic responsibilities to participants. They must also assume responsibility for conducting events in accordance with municipal, provincial and federal laws.

PARTICIPATION

Our community is committed to a radically participatory ethic. We believe that transformative change, whether in the individual or in society, can occur only through the medium of deeply personal participation. We achieve being through doing. Everyone is invited to work. Everyone is invited to play. We make the world real through actions that open the heart.

COMMUNAL EFFORT

Our community values creative cooperation and collaboration. We strive to produce, promote and protect social networks, public spaces, works of art, and methods of communication that support such interaction. Collaboration, cooperation, mutual aid

and communal actions are essential to the camps and to the event, which is constantly looking for volunteers for tasks of all kinds. It's important to get involved and give of your time during the event. Remember to register on the platform to fill at least two volunteer positions during the event. <https://participation.losstidburn.org>

IMMEDIACY

Immediate experience is, in many ways, the most important touchstone of value in our culture. We seek to overcome barriers that stand between us and a recognition of our inner selves, the reality of those around us, participation in society, and contact with a natural world exceeding human powers. No idea can substitute for this experience.

RADICAL SELF-RELIANCE

We encourage the individual to discover, exercise and rely on their inner resources. Each person takes care of themselves at L'OsstidBurn while looking out for others.

LEAVE NO TRACE (LNT)

L'OsstidBurn is a Leave No Trace event. Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavor, whenever possible, to leave such places in a better state than when we found them. You must carry out all your personal effects and your waste after the event. There will be no garbage container at the exit. Bring garbage bags and equipment to manage all your waste, including recycling and compost.

In addition, site cleanliness is a shared responsibility and site maintenance is everyone's business. Have a small bag with

you at all times to collect any trash you see on the ground, even if you didn't drop it there. We also strongly urge you to participate in the site cleanup (MOOP SWEEP) at the end of the event, in addition to your camp cleanup. Please check the LNT guide for more information.

RADICAL SELF-EXPRESSION

Radical self-expression arises from the unique gifts of the individual. No one other than the individual or a collaborating group can determine its content. It is offered as a gift to others. In this spirit, the giver should respect the rights and liberties of the recipient.

GIFTING

L'OsstidBurn is devoted to acts of gift-giving. The value of a gift is unconditional. Gifting does not contemplate a return or an exchange for something of equal value.

DECOMMODIFICATION

In order to preserve the spirit of gifting, our community seeks to create social environments that are unmediated by commercial sponsorships, transactions, or advertising. We stand ready to protect our culture from such exploitation. We resist the substitution of consumption for participatory experience.

RADICAL INCLUSION

Anyone may be a part of L'OsstidBurn. We welcome and respect strangers. No prerequisites exist for participation in our community. So "Include yourself, include others!"

CONSENT: PRINCIPLE 0

L'OsstidBurn is a free and open-minded environment. We want to create a safe-enough space for all. As with the other principles, the well-being and safety of everyone is guaranteed through a collective intention to respect and apply the principle of Consent before interactions.

Principes de consentement

1. **Consent applies to all types of interactions with two or more people (hugging, talking, touching, dancing, sex, sitting near someone...)**
2. **Unanimous, explicit and renewable.** Any interaction (physical or otherwise) requires the EXPLICIT consent of all persons involved in the exchange. **CONSENT SHOULD ALWAYS BE CLEAR, VERBAL, BEFORE ACTION AND RENEWABLE.** Consent can be withdrawn at any time: any interaction can be stopped at any time by those involved, without justification.
3. **À la recherche du OUI enthousiaste** Each person strives to find conditions in an interaction that produce an authentic & enthusiastic YES, before and during the interaction. If you are not 100% sure you want an interaction, it may be better to stay in a NO. A NO is a complete answer and does not require any justification or explanation. When everyone wishes it, it is certainly possible to negotiate to find an ENTHUSIASTIC YES.
4. **Nudity, clothing, costume or behaviour DOES NOT constitute an invitation to any interaction.**
5. **Consent must be FREE and CONSCIOUS.** A person who is asleep or under duress is not consenting. Taking

substances (alcohol, drugs, cannabis...) or even sexual energy and physical intimacy can also alter consciousness. So you need to be all the more vigilant if you use a psychoactive substance or interact with a person or persons in an altered state of consciousness.

All involved clearly understand what they are committing to by accepting the interaction. Consent must be **INFORMED**.

Collective responsibility

Like the other principles, consent is everyone's responsibility. The L'OsstidBurn community is committed to embodying these principles in a caring way, and to ensuring that they are upheld, as an actor and as a witness. Each individual is responsible for validating and verifying the consent of their partners, for clearly naming their YES and NO, and for respecting expressed limits at all times.

Adherence to these principles guarantees a safe space for everyone to name and to assert their NO.

What to do if you witness or experience a violation of consent?

If a participant seems to make people uncomfortable or exceeds explicitly agreed limits, feel free to express it openly.

- If you do not feel comfortable acting, approach the Rangers.
- If you feel at risk yourself, leave the situation immediately, and go find the Sentinels or Rangers.

Please inform Rangers of any inappropriate behaviour. The Organization reserves the right to expel any person whose behaviour is inappropriate.

After the event, if you'd like to inform us of any breach of consent, you can do so by sending us an email at consentement@osstidburn.com

<https://osstidburn.org/language/fr/preparation/consentement/>

Photography

Photographing and filming participants without their consent is prohibited. Remember to ask before taking pictures!

Respect the 'No photography' or 'Pas de photo' signs.

Parents

PREPARE YOUR KIDS. Let your kids know in advance about the kind of things they might see and hear. Nudity, iconoclastic art, rude language and weird behaviour are all part of the event.

When you get to L'OsstidBurn, walk around with them and identify landmarks that will help them navigate and be safe. Show them Safety HQ and speak to the Rangers. Children can show up at Safety HQ if they get lost.

ARRIVALS

Early arrivals

Tuesday: 9AM to 1AM (next day)

General access

Wednesday: 9AM to 1AM (next day)

Thursday: 9AM to 1AM (next day)

Friday: 9AM to 5PM

Exodus

Sunday: 9AM to 2PM

We strongly recommend arriving during the light of day. The site is located in the woods. You will need to clear your campsite and remove branches, rocks, leaves. Bring working gloves and tools.

LEAVE NO TRACE (MOOP SWEEP)

Sunday: 2:00 PM to 6:00 PM

TICKETS

No tickets will be available on site!

- Make sure you and everyone in your vehicle have your tickets.
- All participants must have a ticket in their name to access the event.
- You must have photo ID with the same name and birth date that you provided when you purchased your ticket. If your legal name differs from the one on the ticket, please contact us beforehand. Our gate team will need to identify you in order

to let you into the site.

- Participants under 18 will be given a different-coloured wristband so they won't be served alcohol.

PROHIBITED ENTRY

Anyone who attempts to enter without a ticket will be expelled immediately and banned from future L'OsstidBurn events.

Carrying stowaways or helping people sneak in is as serious as sneaking in yourself. All passengers in a vehicle carrying stowaways will be prohibited entry without reimbursement of tickets.

Be respectful of the organizers. They are volunteers for the event, just like you are.

VEHICLE ACCESS

The final meters of the road leading to the entrance to the L'OsstidBurn site are quite rough. Drive very slowly.

Since the trail to the camping sites is quite rugged, **only 4x4 vehicles with at least 12 inches of ground clearance will be allowed access.**

IF THE OWNER AND/OR THE DPW CONSIDER THE TRAIL TO BE IMPASSABLE (MUDDY DUE TO WEATHER CONDITIONS), a shuttle system (trailers) will be set up only for artworks and placed camps, in accordance with the planned schedule.

Access to the trail with a 4x4 vehicle

Tuesday: 9AM to 7PM
Wednesday: 9AM to 7PM
Thursday: No vehicles
Friday: No vehicles
Saturday: No vehicles
Sunday: 9AM to 2PM

Don't have a 4x4?

When you arrive at the L'OsstidBurn site, you must leave your vehicle in the parking lot and transport all your personal belongings by your own means. The trails are impassable for any standard road vehicle.

It's about a 15-minute walk from one end of the site to the other along the trail – come prepared!

BRING HAND TRUCKS, WAGONS, ROPES, ETC. TO TRANSPORT YOUR EQUIPMENT. PARKING IS ABOUT 800M FROM THE CAMPING AREA.

The L'OsstidBurn site has a limited capacity to accommodate cars. The parking team works miracles every year to guide you when you arrive.

If you drive to l'OsstidBurn, **IT IS MANDATORY to have a parking pass (car or RV). You need one parking pass for each vehicle.**

Parking & Bus tickets for L'OsstidBurn 2022 | Eventbrite
<https://www.eventbrite.ca/e/billets-stationnement-bus-pour-losstidburn-2022-338977790697>

BURN BARREL

RULES & REGULATIONS

A "burn barrel" (or other authorized fire device) is a device for safely starting a fire and spreading its heat, while avoiding becoming a fire spreader. To comply with L'OsstidBurn requirements, it must meet specific criteria, i.e. have legs, have a clearance of 15 centimeters (6 inches) from the ground, and be covered by a grate with holes smaller than ½ inch (1cm) to prevent embers from escaping. In addition, before operating a burn barrel or other authorized fire device, the ground must be swept clear of all leaves and twigs in a perimeter around the device that is equivalent to its height. In other words, a burn barrel that is 1 meter (3 feet) high should have a clear perimeter around it of 1 meter (3 feet).

Do not dig or start your own campfire/fire pit. Use only the designated fire pits/burn barrels, and share the warmth and the company! Burn only dead wood, dry leaves and twigs from the forest in these fires. It is strictly forbidden to cut wood onsite. Do not burn any plastic, treated or painted wood, or other items.

Each camp can bring and take care of its own burn barrel. To do so, you must first make an official request to the FAST committee by filling out this form:

<https://forms.gle/iis4tdhxtQzHv74X6>

During the event, BEFORE LIGHTING, all fire devices must be verified and authorized on site by a FAST member.

Camping stoves are permitted for cooking, but no ground fires are allowed in the camping areas. Ensure that you have a fire extinguisher in a visible location near your kitchen area.

Gas appliances without modifications approved by an organization recognized by the RBQ are permitted. (e.g. radiant heaters).

For such appliances:

- A sober operator must be present at all times when the appliance is in operation.
- Position the appliance in an open area and ensure that it is stable when in use.
- Clear all leaves and twigs from within a 1.5-meter area around the appliance and ensure that there is adequate overhead clearance.

Campfires & Risks of forest fires

- Make sure that all other fuels (propane, gasoline, etc.) are at least 10 meters away from the appliance when in operation.
- Keep a fire extinguisher in a visible location within 5 meters of the appliance at all times.

NO PYROTECHNICS OR FIREWORKS ARE ALLOWED.

Portable oil torches (tiki torches), or any other type of open flame torch or candle are not permitted at the event..

PLEASE NOTE - CRAZY IMPORTANT

Water

There will be no access to drinking water. You must bring your own water for consumption. We suggest 3L per person per day.

Swimming

Absolutely no swimming after dark!

It is forbidden to wash your dishes or yourself in the stream. Even if your soap is biodegradable, don't do it. Keep the stream pristine.

Volunteering (REMINDER)

Everything at L'OsstidBurn is organized and run by volunteers. Volunteering is a great way to contribute and participate in the event. There are many ways to get involved: Gate, First Aid, Rangers, Fire Perimeter, Department of Public Works (DPW) etc.

<https://participation.losstidburn.org>

Les Tiques

The Eastern Townships is a hotspot for infected ticks that can transmit Lyme disease. See this site for further information:

<https://www.quebec.ca/sante/problemes-de-sante/a-z/maladie-de-lyme>

Portable ashtrays

BEWARE SMOKERS! Don't toss your butts in the forest – use a portable ashtray.

Fire arts

Any flame effect or fire pooper must have been placed on the site by the organization beforehand. If you or your camp plans to install a fire work, you must apply for a specific placement. Before lighting, you must have your work checked by a member of FAST (Fire Art Safety Team).

Exits / Re-entries

If you leave the site, you can't re-enter unless there's an urgent need to do so. Remember, there's no drinking water or electricity on site!

Campfires

NO CAMPFIRES ALLOWED!

Refer to the «Burn Barrels: Rules & Regulations

WHAT YOU SHOULD BRING

Camping & Equipment

- Rakes, work gloves, small axe, pruning shears to clear a space for your camp.
- Water. There is no water source on site.
- Food
- Tent & tarp
- Sleeping bags, blankets, coats, etc. (Bring enough warm stuff to be comfortable during cool nights -- you'll need more than you might think!)
- Cooker, cooler, bowl, utensils, fuel, saucepan and kitchen accessories
- Fire extinguisher
- Eco-friendly soap and dishwashing liquid
- BRING YOUR OWN CUP! You never know when the bar will be open
- Light: headlamp, flashlight, EL Wire for you or your tent. Avoid glowsticks — they are neither reusable nor ecological.
- Shade structures: parasols, fabrics. You need something to protect yourself from the sun... and the rain!
- Duct tape and rope
- Insect repellent
- Sunscreen
- Bags for garbage and recycling
- Portable ashtray for smokers
- First aid kit
- Camping chair
- Accessories, banners, signage or decoration that could make the experience more enjoyable for you and your neighbours

- Ear plugs
- Disinfecting wipes
- Hand sanitizer

Clothing

- Clothing for both warm and cool temperatures – Expect hot days and chilly nights
- Several pairs of socks, in case of rain
- Raincoat and rainboots
- Costumes

Extras

- Musical instruments
- Gifts to give to new friends
- Makeup
- Juggling accessories
- Your openness, your generosity, your sense of humour, and your smile

WHAT YOU SHOULD NOT BRING

- Lasers
- Firearms
- Items that create MOOP – feathers, confetti, glitter, etc.
- Overpackaged items: avoid packaging or discard it before you leave home
- Fireworks/rockets
- Polystyrene/styrofoam accessories
- Pets
- Glass containers of any kind, if possible. Opt for cans.
-

CAMPIGN AT L'OSSTIDBURN

Theme camps will be given clearly marked camping areas. If you're not affiliated with a Theme camp, please camp in an open-camping area.

There will be sound camps at L'OsstidBurn that will play amplified sound throughout the night. Please take this into account when choosing your location. If you are a light sleeper, it is possible to find quieter spots at the top (closer to the Plana).

We're only a few hundred meters away from the American border. Don't wander too far away. For your own personal safety and freedom, stay within the limits of the site. We don't want to go on a mission to retrieve you from U.S. customs ;)

Don't go out by yourself at night. There are bears in the area.
Note: Bears don't like amplified noises, so they should keep their distance.

Help each other do tick checks regularly.

Generators

Please be responsible when using generators and gasoline to avoid contaminating the ground and water. Leaks and spills are dangerous for participants and the forest. Gasoline fires are extremely hazardous and difficult to put out, and drastically increase the risk of forest fires. If you have questions about using your generator safely in the forest, please contact Rangers or FAST.

- All gas for generators should be stored in the shade at least 3m (10 ft) from your generator and 15m (50 ft) from any fire pit/burn barrel/open flame.

- Never run a generator in a sleeping tent or other enclosed space.
- In the event of a gasoline spill, contact the Rangers immediately.
- Do not let your generator run needlessly. If you don't need power, turn it off.
- Do not turn off a generator that is not yours except in case of emergency or immediate danger. Try instead to find its owner if it poses a problem or bothers you.
- Clear all leaves and twigs from within a 1.5-meter (5 ft) area around your generator.
- Keep a fire extinguisher in a visible location within 5 meters (16 ft) of the generator at all times.
- Coiled extension cords can heat up and even catch fire when they carry a large load. Do not leave extension cord coils close to your gasoline or generator.

Toilettes/ Porta Potties

Take care of them and keep them clean for the next person.

What goes in the toilet:

- What comes out of your sweet body
- Toilet paper (single-ply)

Do not put any of the following in the Porta-Potties: tampons, sanitary napkins, hand towels, diapers, cigarette butts or any other waste.

Bring a bag with you to dispose of such items.

Sound policy: «respect others»

The SonCoeur (Sound Core) policy guide is available on the L'OsstidBurn website:

<https://losstidburn.org/a-propos/politiques/>

The SonCoeur team believes in the sound system operators' ability to self-regulate and we appeal to their best judgment and ability to adapt to the various situations that a burn represents.

There will be no "sound police" or patrol to enforce the rules. That being said, the rules are quite clear and specify that any participant is entitled to consult a camp (and its sound level meter) in order to check noise level.

- All category 1+ sound systems (check the guide) must register before the event.
- Limit at all times is 100 decibels at 5m (dBC weighting).
- Quiet hours (without amplified music and generators) **between 6AM and 10AM** on Friday, Saturday and Sunday (from 6AM until GTF0).
- An operator must be nearby while their sound system is running. Under no circumstances should an amplified system be left in operation without anyone awake around (some exceptions could be made for an art installation).

An exceptional situation may require exceptional measures.

This policy is subject to change. We are looking to establish a good relationship with the neighbours and the Township, so please cooperate if we ask you to turn it down (and especially

do not turn it back up afterwards!!!) **After two warnings, you will have to cut your sound for the rest of the event.**

Remember, participants always have the right to politely express their opinion about the noise level of a soundcamp. The soundcamp is free to agree or not (if the rules are correctly followed).

Let's do our best to put ourselves in the other person's shoes and not cause any unnecessary headaches (whether caused by sound or conflict).

LEAVE NO TRACE (LNT)

Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. We clean up after ourselves and endeavour, whenever possible, to leave such places in a better state than when we found them.

You must carry out all your personal effects and your waste after the event. There will be no garbage container at the exit. Bring garbage bags and equipment to manage all your waste.

In addition, site cleanliness is a shared responsibility and site maintenance is everyone's business. Remember to have a small bag with you at all times to collect any trash you see on the ground, even if you didn't drop it there. We also strongly urge you to participate in the site cleanup (MOOP SWEEP) at the end of the event, in addition to your camp cleanup. **CONSULT THE LNT GUIDE FOR FURTHER INFORMATION ON THE SUBJECT.**

What is MOOP?

MOOP is an acronym for "Matter Out of Place", which is a convenient way of referring to anything that is not originally of the land on which our event takes place. It can be anything: cigarette butts, bottle caps, glowsticks, fireworks, feathers, broken bits of wood, plastic, metal or broken glass.

Organic matter, even if it's biodegradable, is also MOOP. If everyone started throwing away apple cores or banana peels in the wood, the place would soon become a dump and attract animals. Our environmental impact must be as small as possible.

Unlike mainstream festivals, LNT events do not provide facilities for garbage or recycling on the site. Each participant must assume responsibility for their environmental impact. Everything brought to L'OsstidBurn must leave with you, including your waste. Be sure to dispose of it responsibly after the event.

LNT good practices guide

As you're planning your trip, it is absolutely necessary that you read the LNT good practices guide on our website, under the Preparation -> Leave No Trace section.

<https://losstidburn.org/language/fr/preparation/laisse-pas-dtrace/>

This guide will answer most of your LNT questions. If you still have questions after reading it, please feel free to contact the L'OsstidBurn community on its Facebook page, or contact: LNT@losstidburn.com

Final MOOP sweep

The LNT committee ensures that the site is in as good or better condition than when we arrived.

A complete clean up of the site will take place on Sunday, June 26th from 1pm to 6pm and we need your help!

To participate, please check the volunteer platform.

<https://participation.losstidburn.org/>

MOOP Map

Each year, the LNT committee creates a MOOP Map, based on the photos of what we gathered during the final MOOP sweep. It shows the cleanliness level of camps, art installations and

common areas, as they were left by the participants, before the MOOP sweep.

This data is carefully examined by the LNT committee and used during the preparation of future editions to give camps and artists their placement.

The field, parking site, paths, wood and river are common areas. It is your responsibility as a participant to make sure they remain clean, in the same way as your camp.

SECURITY COMMITTEE

Rangers, Sanctuary and First Aid

We are Burners, we care for our community. We mediate, offer conflict resolution assistance, and act in emergencies.

If you need help, you can find us at Safety HQ. You can find the location on the map.

Rangers patrol in groups of two and are equipped with radios so they can communicate more quickly with other teams if needed. The First Aid volunteers are on call and can be reached by radio, especially via the Rangers. If you feel caught in an uncomfortable situation, the Rangers and First Aid will be there to support you. Sanctuary volunteers can also accommodate you and provide you with a more secure, well-lit and weatherproof space.

The Sanctuary is a calm place for participants who are going through a difficult experience and feel the need to be supported during this time. Volunteers will be on site at all times to answer any questions, keep company or just have a good chat. Cozy with pillows and soft blankets, lit up, warm and dry: it is a place to relax and ground yourself. There will also be activities, discussions and workshops on consent, cultural appropriation and safer drug use. Clean and sterile safer drug use and safer sex supplies will be available around the clock, as well as information of all sorts about drugs and sexuality.

Please exercise caution. Take care of your friends and yourself. Remember to drink water and to eat. And have fun!

We have medical supplies at Safety HQ. Come see us if you don't have what you need in your own first aid kit.

At night, make sure you can see and be seen. Always carry at least one flashlight or headlamp.

- The L'OsstidBurn Safety Team

Effigie & temple

The Effigy burn is on **Friday** at sundown. The Temple burn is on **Saturday** at sundown.

The Temple is an intentional space of co-creation. A team of volunteers has built a monument to serve as an open canvas for our collective release. During the event L'OsstidBurners can write messages, leave mementos, spend quiet time, engage in ceremony or whatever it is that has significance for them to commemorate things they would like to let go of. If that's not your thing, that's fine. Please respect this space and the personal and important items inside. If you stay until the very end of the event, you'll have the privilege of experiencing the Temple Burn, where we as a community observe the transformative act of burning away all we are ready to leave behind. The Temple burn is on Saturday at sundown.

If you want to take part in the Effigy or Temple Burn perimeter, please sign up on the volunteering platform:
<https://participation.losstidburn.org>

* If there's a fire ban during the event, there will be no Burn. The Effigy and Temple are collective works. If you want to participate, head over to the Plana during the week to help the teams build these structures.

Flame Effect

All flame effects must be pre-registered prior to the event. It must also be inspected and approved before activation by the FAST (Fire Art Safety Team).

Conclave

Fire art and fire performances are more than welcome during the Conclave, which will happen right before the Effigy burn. If you wish to participate, please contact us: participation@losstidburn.com

A mandatory meeting for all Conclave participants will take place in the afternoon (3pm-5pm) before the Burn for a security class to make sure everyone is covered by our insurance. They will then meet again 1 hour before the show. A security team will be present during the entire fire ceremony. The L'OsstidBurn Organization will provide all the necessary security equipment.

To avoid fire spread, do not perform fire performance outside this safe zone.

Fire Jam

Except for Conclave, there will be no fire jam area during the 2022 edition because we could not get any insurance for that. If you wish to create and manage your own fire jam area and you have the necessary insurance, please contact us: participation@losstidburn.com

TO END WITH...

Lost & Found

This year, the Lost & Found station will be at Safety HQ. That's where you can drop off objects you find or recover your pre-cioussssss.

EXODUS

Pack out what you packed in!

All participants (except LNT volunteers) must leave the property by 2PM, Sunday June 26th. Considering the high volume of traffic on the path during exodus, a schedule for vehicles will be set up with time slots reserved for entering and exiting the path. Please take this into consideration when planning your departure. **THE LEAVE NO TRACE SESSION WILL RUN FROM 2PM TO 6PM.**

Take time to do a MOOP sweep of your campsite and other areas you frequented before leaving.

- Every piece of waste must be picked up.
- Everyone in line!
- Stay one meter apart.
- Walk forward and pick up everything you see!

MOOP OUT!

THE END.

Thank you for reading this guide.

The more it's read, the better everyone's experience will be at L'OsstidBurn.

We are all responsible for what this event is going to be! We do not know what will happen at L'OsstidBurn – that's the beauty of the event and the community that creates it.
